

CONTRIBUTORS (LISTED ALPHABETICALLY)

Chris Beyrer, MD, MPH, is an associate professor in the Departments of Epidemiology and International Health at the Johns Hopkins Bloomberg School of Public Health. He serves as director of Johns Hopkins Fogarty AIDS International Training and Research Program, and as founder and director of the Center for Public Health and Human Rights at Johns Hopkins. He has an undergraduate degree in history from Hobart & Wm. Smith Colleges; did his medical school training at the State University of New York, Downstate Medical Center in Brooklyn; and completed his public health and infectious diseases training at Johns Hopkins University. He currently has research or training activities in Thailand, China, Burma, India, Laos, Malawi, Uganda, Ethiopia, South Africa, Brazil, Russia, Tajikistan, and the United States. He is the author of the 1998 book *War in the Blood: Sex, Politics and AIDS in Southeast Asia* (Zed Books, London and St. Martins Press, New York). Dr. Beyrer has published extensively on the subjects of HIV/AIDS epidemiology and prevention research, HIV vaccine research, and public health and human rights. He is the author of more than one hundred articles and scientific papers. He has served as a consultant on health in developing countries to numerous organizations, including the World Bank Institute, the World Bank Thailand Office, the Office for AIDS Research of the U.S. National Institutes of Health (NIH), the Levi Strauss Foundation, the U.S. Military HIV Research Program, the Henry M. Jackson Foundation for the Advancement of Military Medicine, the Open Society Institute, the Avahan Program of the Bill and Melinda Gates Foundation, the Royal Thai Army, and the Thai Red Cross Program on AIDS.

Kari Hartwig, DrPH, MA, is an assistant clinical professor in the Division of Global Health, Yale School of Public Health, and a research scientist with Yale's Center for Interdisciplinary Research on AIDS. Dr. Hartwig's public health experience includes more than fifteen years of research and practice related to international HIV/AIDS programs in Africa, Asia, and Latin America, including three years working on an international HIV/AIDS prevention initiative from an Asia regional office in Bangkok, Thailand. Her research interests include examining structural interventions and gender analysis of HIV/AIDS programs and policies; participatory monitoring and evaluation strategies for southern nongovernmental organizations; faith-based responses to HIV/AIDS; issues of stigma and AIDS; access to antiretroviral treatment; and responding to the growing orphans crisis. Recent publications include *Globalization, Women and*

Health in the 21st Century (2005) co-edited with Ilona Kickbusch and Justin List; “Corporate Citizenship, AIDS and Africa: Lessons from Bristol-Myers Squibb Foundation’s Secure the Future Project” in *Corporate Citizenship In Africa: Lessons from the Past, Paths to the Future*, edited by W. Visser, M. McIntosh, and C. Middleton (2006); and “AIDS and ‘Shared Sovereignty’ in Tanzania from 1987 to 2000: A Case Study,” in *Social Science & Medicine* (2005).

Gabriel M. Leung, MD, MPH, is professor of Epidemiology, International Health, and Health, Behavior, and Society at the University of Hong Kong School of Public Health, and holds an adjunct professorship at the University of Pennsylvania. He is an honorary consultant to the Hong Kong Department of Health and vice president of the Hong Kong College of Community Medicine. His research focuses on synthesizing best, current evidence for high-impact public health priorities in Hong Kong and other East Asian populations, particularly Greater China and the Asian Tigers. Since the SARS epidemic in 2003, Leung has developed and currently directs a new research program in infectious disease epidemiology with particular reference to influenza and other emerging and reemerging pathogens of regional importance. He has also pioneered the systematic integration of psycho-behavioral surveillance as an important component of communicable disease control. He chairs the Scientific Committee on Advanced Data Analysis and Disease Modeling at the Government Centre for Health Protection, and also serves on its Board of Scientific Advisers. Dr. Leung is an associate editor of *Health Policy* and has published widely in the areas of epidemiology, health services research, and health policy and economics. As a Fulbright Scholar, Leung trained in health policy and management at Harvard University and recently returned on sabbatical as Takemi Fellow in International Health. He earned a higher doctorate by research from the University of Hong Kong, majoring in pediatric epidemiology and health services research. He is a medical graduate of the University of Western Ontario, and he completed specialty residency in family medicine at the University of Toronto.

Stella R. Quah, PhD, is professor of sociology at the National University of Singapore. Her research areas are medical sociology, public policy, and family sociology. She is a member of the International Advisory Board of the *British Journal of Sociology*; the Editorial Advisory Board of *Health Sociology Review*; the International Advisory Board of *Asian Population Studies*; and she is the editor of the Health Systems Section, *Encyclopedia of Public Health* (Elsevier Inc). Her recent publications on medical sociology include: “Public Image and Governance of Epidemics: Comparing HIV/AIDS and SARS,” *Health Policy* (2007); “Health and Culture,” *The Blackwell Companion to Medical Sociology*, ed. W.C. Cockerham (2005); “Crisis Prevention and Management during SARS Outbreak, Singapore,” *Emerging Infectious Diseases* (2004), with H. P. Lee; “A Tale of Two Cities: Community Psychobehavioral Surveillance and Related Impact on Outbreak Control in Hong Kong and Singapore during the Severe

Acute Respiratory Syndrome Epidemic,” *Infection Control and Hospital Epidemiology* (2004), with G. M. Leung et al.; “Traditional Healing Systems and the Ethos of Science,” *Social Science and Medicine* (2003); and “Food Groups and the Risk of Colorectal Carcinoma in an Asian Population,” *Cancer* (2002), with A. Seow et al.

Graham Scambler, PhD, is professor of medical sociology at University College London. His early work was on the ramifications of chronic conditions, particularly those involving stigma, and on the quality of life of people experiencing them. Other research projects focused on menstrual disorders and on the health of sex workers. He has also contributed to social theory and health, applying both critical realism and critical theory to issues of health and health care. He is the founding co-editor of the international journal *Social Theory and Health*. He has published many journal articles, and recent books include *Habermas, Critical Theory and Health* (Routledge, 2001); *Health and Social Change* (Open University Press, 2002); and *Sociology as Applied to Medicine*, 5th edn. (Saunders, 2003). He is currently working on a book titled *Social Exclusion: Critical Perspectives* (Polity Press).

Jim Whitman, PhD, is a senior lecturer in the Department of Peace Studies, Bradford University, and the director of its MA program. His research interests include the history and dynamics of global governance mechanisms to cope with epidemics and the role of law at the national and international levels. He is co-editor of the *Journal of Humanitarian Assistance*, and general editor of the Palgrave/Macmillan series *Global Issues*. He edited *The Politics of Emerging and Resurgent Infectious Diseases* (Palgrave, 2000), and his most recent book is *The Limits of Global Governance* (Routledge, 2005).
